## 1 - Chemin de l'Hermitage - 125 m

Carry on opposite until you get to the Cave de Tain. Go up the D241 for about 200m. On the bend between small stone walls, a paved path takes you up along a vineyard. Quite a distance on, just before the end of the stone wall on the left (opposite an opening in the wall), follow the path going down into a gully. Continue and go under a rock shelter before an uphill path takes you through undergrowth and past vineyards.

## 2 - L'Hermitte - 239 m

Turn left at the junction. The road soon becomes a track. Go past the houses and down through the vineyard along a water retention pond (go round the left side) After a few metres on your right a red square sign indicates the beginning of a windy narrow, downhill path towards vines. Careful going down, the path is narrow and sometimes slippery. Further down there are two cabins : go towards the one on the right and turn left onto a wide path with paving stones a little further on until you get to the road.

## 1 - Chemin de l'Hermitage - 120 m

## ! Advices

Attention de ne pas stationner sur le parking de la cave de Tain, et de bien laisser la place pour les clients de la cave.
