Pause à la chapelle de l'Hermitage (Ardèche Hermitage Tourisme)

This trail is quite difficult therefore more suitable for the more experienced cyclist. The few uphill sections are steep and the downhill ones, although thrilling, are technical at the same time. Enjoy some magnificent tracks after the strenuous climb uphill towards the start. Take the time for a short detour to visit the chapel and admire the view over the valleys of Hermitage and area around Tournon. Going through vineyards, the terrific downhill section that follows is very technical.
