Departure : Vaudevant - Centre of the village
Arrival : Vaudevant - Centre of the village
Markings : 🚲 VTT
Cities : 1. Vaudevant
2. Saint-Victor
3. Saint-Félicien

1 - Vaudevant

Head towards Préaux and turn right just after the restaurant down the steep paved lane. When you get to the old mill, cross the stream la Vivance then continue ahead uphill on a grass path through undergrowth. When you come to the small road go straight ahead to the main road. Turn right onto the road and first left onto the lane. When you reach a wide right bend, turn right onto the continuous uphill track with a few rocky parts.

2 - Le Grangeon

Turn right onto the level track with a regular downhill slope through woodland.

3 - Bois de Meyannes

Carry on downhill on the main track until you reach the Col du Juvenet. Cross the main road and head opposite onto the continuous uphill track towards Montplot.

4 - Montplot

Go through this picturesque hamlet, with its panoramic view, onto the wide track facing you. Go over the ridge to the other hillside then downhill on the track becoming a road further down.

5 - Les Brudonnes

On the hairpin bend turn right onto a quite technical path going down through chestnut trees. As you come out of the wood go through the hamlet and carry on along the road leading to it. A few hundred metres further on, bear right onto the path going between woodland and fields and down onto a small lane. Turn right here and go as far as Col de Fontaille. Cross the main road and head straight on onto the small lane.

6 - Montpeyroux

Carry on along the hillside track. The going is quite rough on the continuous downhill incline amongst chestnut trees. Further down, turn right onto the road and go along as far as the large hairpin bend on the main road. Turn left onto the main road and go along for a few metres before turning first left. Just before reaching the end, turn right onto the downhill path leading to the old bridge. Go across then straight after to the right on the uphill path along the wall of a private property. Go into the village of Saint Félicien heading towards the main central square.

7 - Saint Félicien

Go across the square, past the post office, left past the old butcher’s shop then right before the stone porch.

8 - The Park

Continue ahead and onto the steep uphill road to the right leading to the cemetery.

9 - La Simonde

Turn right onto the small road facing the cemetery. At the end, turn left onto the path at the corner of the first house. The going is quite steep and rough underfoot making it also quite technical. Further up turn right onto a more pleasant path then becoming a road. On the sharp right bend head down along the field coming out onto the main road. Cross the road and go along the path running parallel to it. Carry on along for a few more metres.

10 - Sauze

Continue ahead on the main road then turn first right. Just below, go onto the level path in the woods that zigzags gently uphill taking you back to the starting point.
